

Healthcare UI/UX

A Customer-first Approach

A User Interface is like a Joke.
If you have to explain it,

IT'S NOT THAT GOOD.

-Martin LeBlanc

LISTEN TO OUR CLIENT

Introduction

What is Healthcare UX?

UX stands for user experience to measure the ease and pleasure users enjoy when navigating a healthcare web or mobile Interface.

Why healthcare projects need better UI/UX?

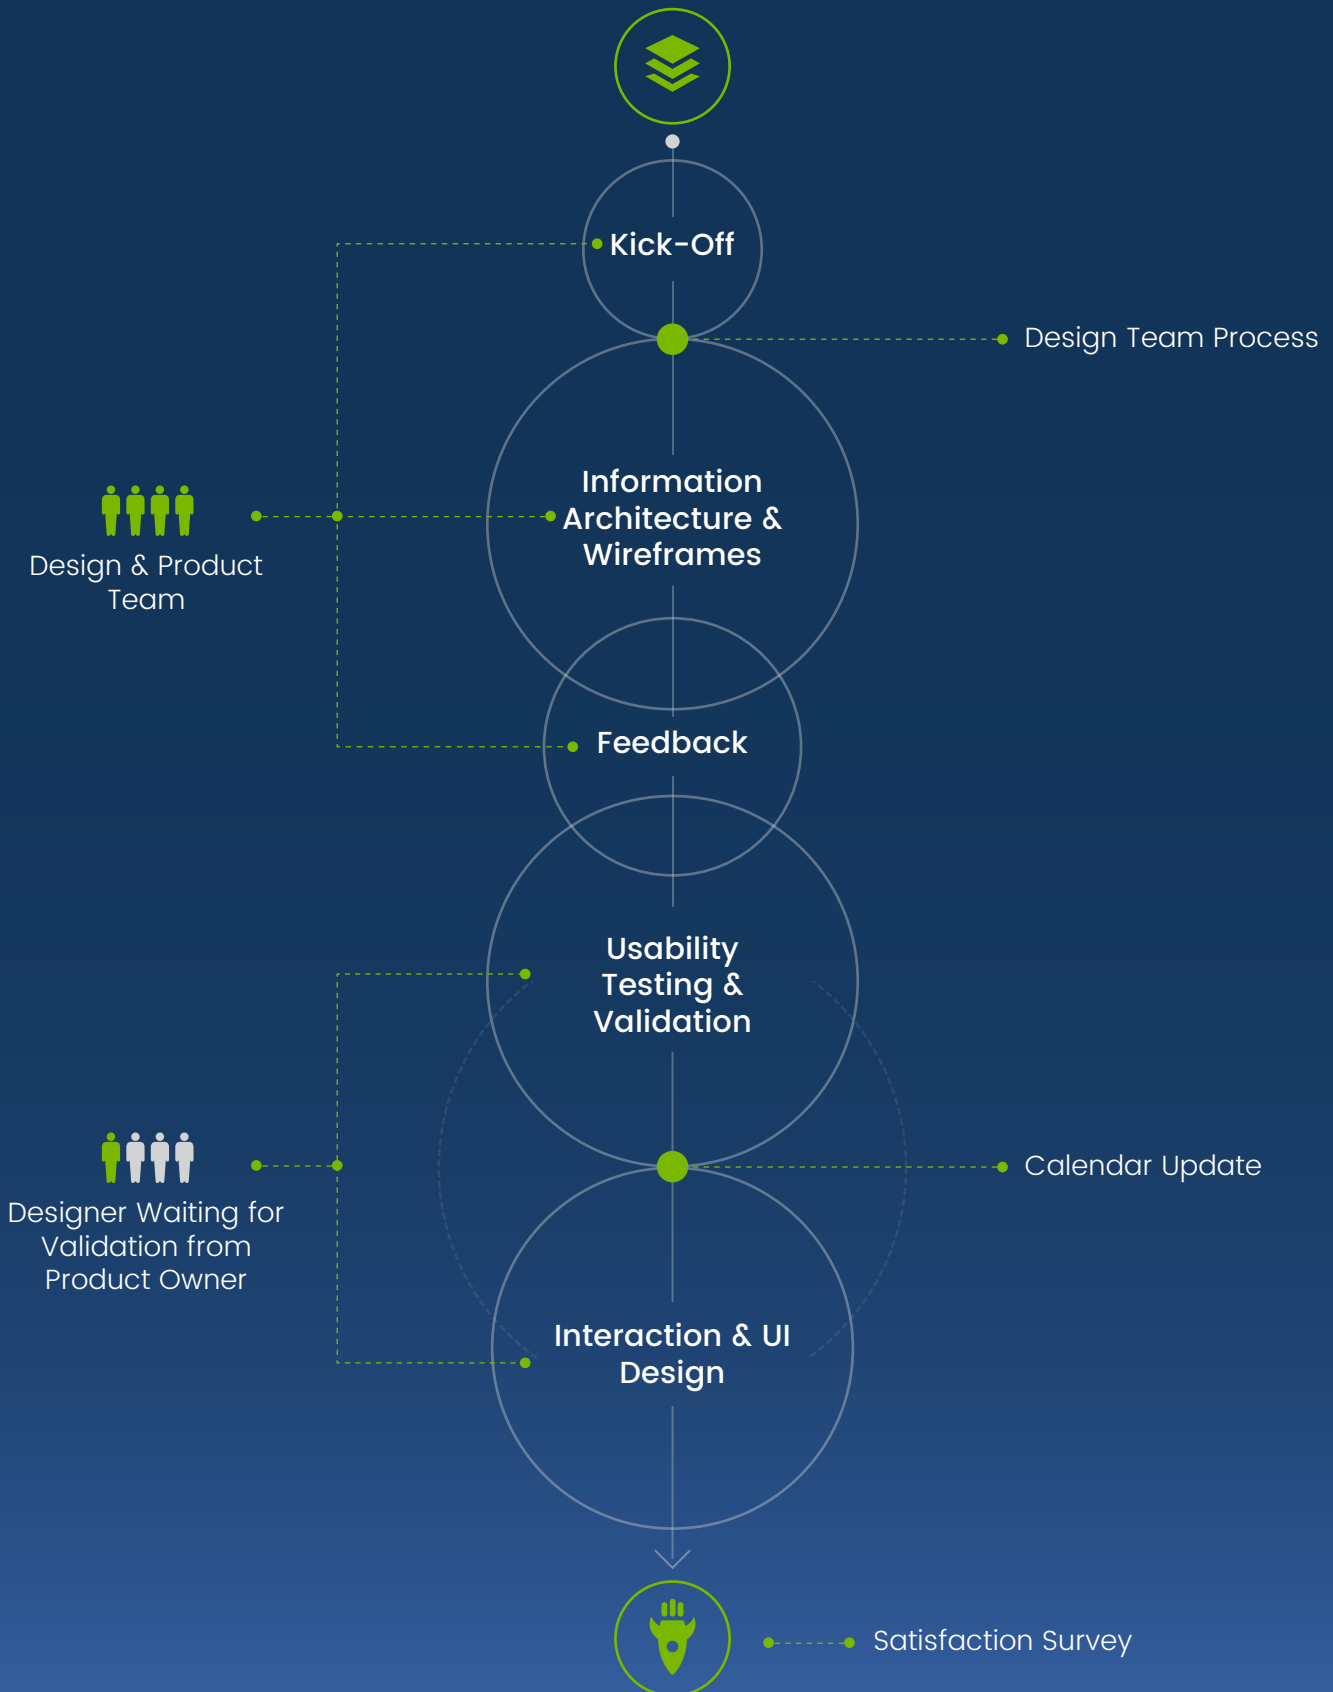

A trusting doctor-patient relationship is the foundation of a better way of living. Digital Health without great UX is like a staircase with uneven steps.

Disconcerting and unintuitive, it leaves end users unhappy. For better patient engagement and experience, healthcare UX is important.

How to design a great **Healthcare Experience**

Brief & Estimation

Client Deliverables

Healthcare UX Components

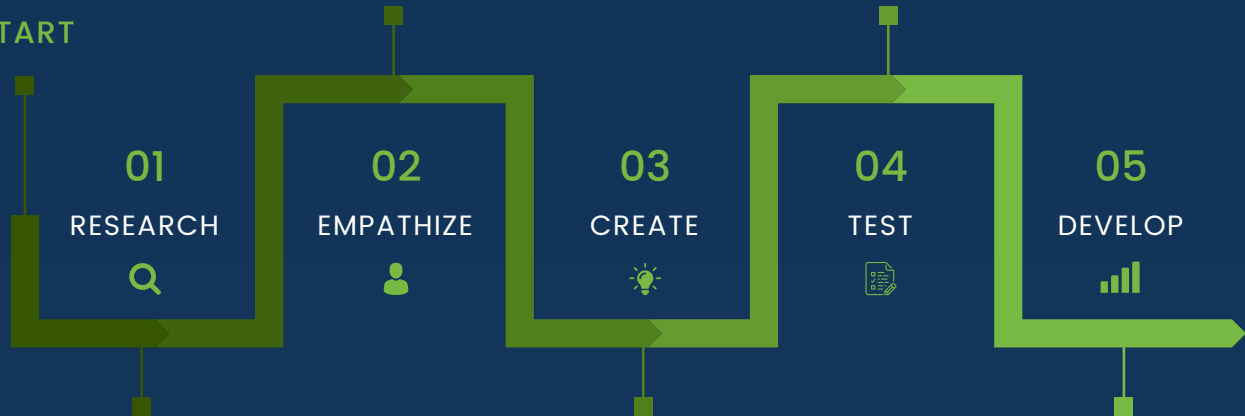

BE THE USER

1. User persona
2. User scenarios
3. User testing
4. User experience map

DATA DOESN'T LIE

1. Usability tests
2. Review metrics
3. Track usage
4. Inform next iteration

START

MEET THE USER

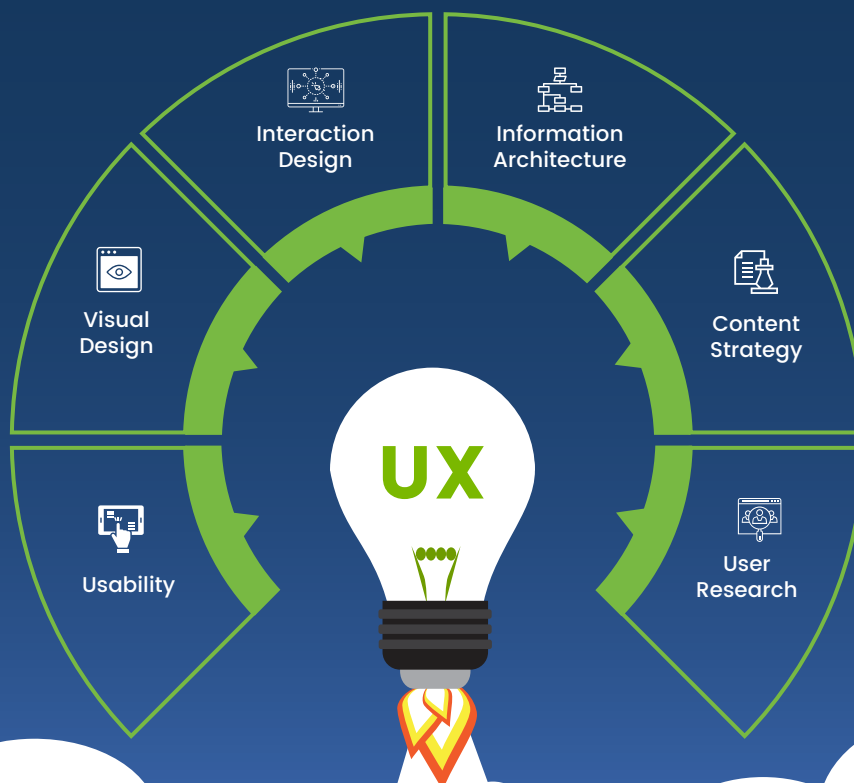

1. User demographics
2. Define user goals
3. Define user challenges
4. Define metrics & form hypothesis

MAKE IT SIMPLE

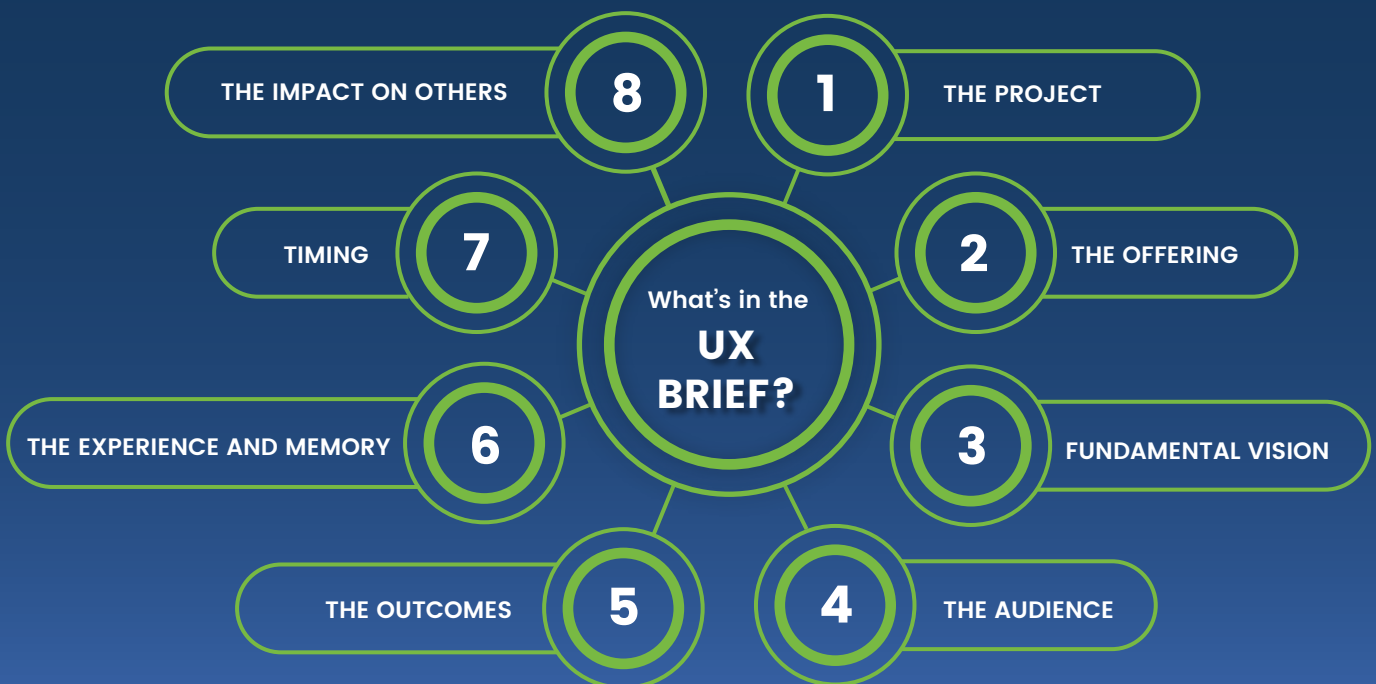

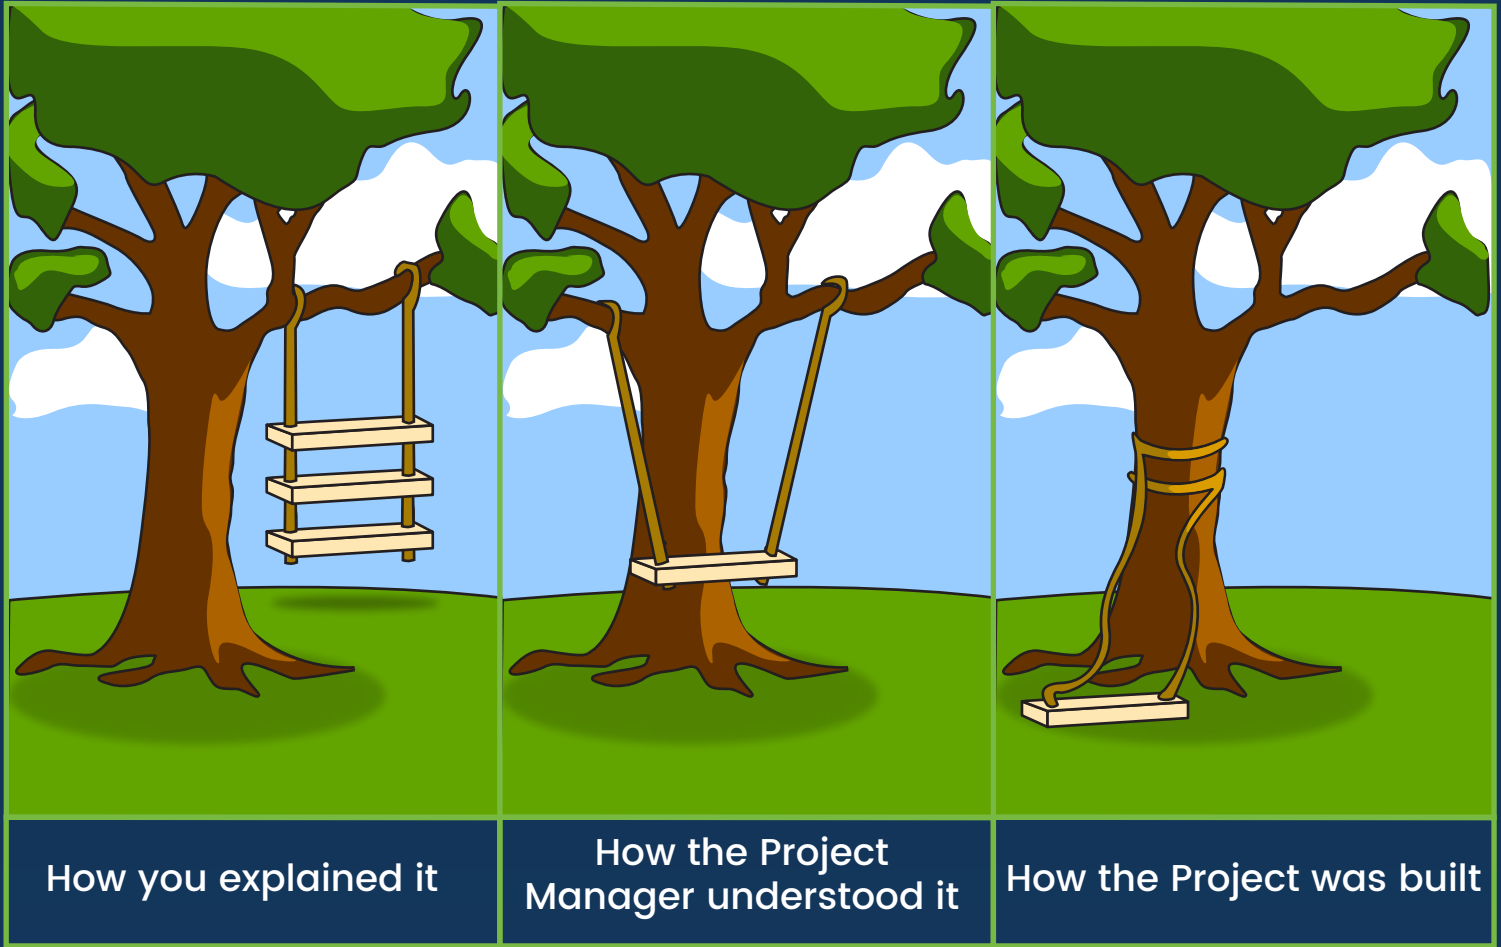

1. Wireframes
2. Moodboard
3. Mock-ups
4. Style guide

STICK TO THE DESIGN

1. Usability test
2. Review metrics
3. Track usage
4. Inform next

Project Briefing

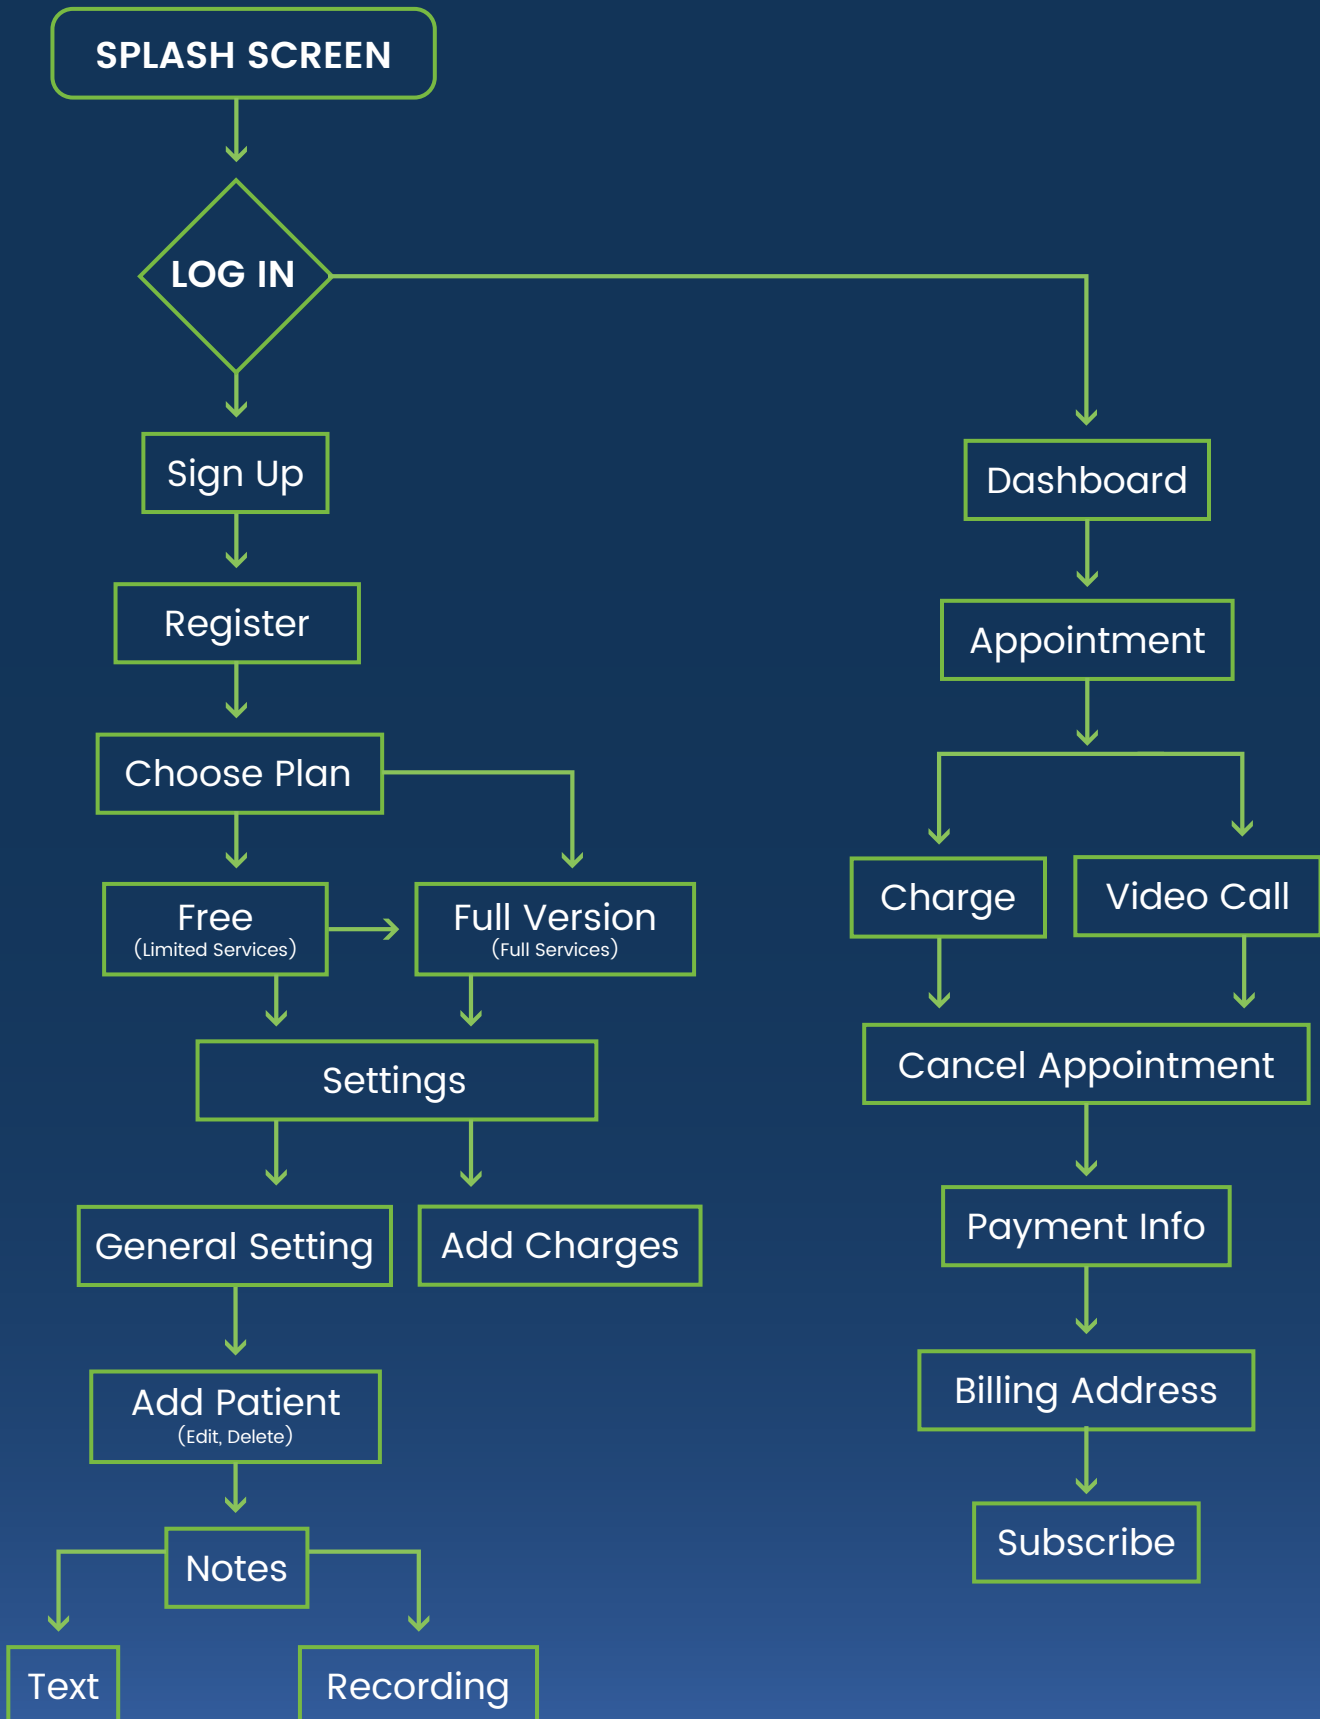

Our Customer: **Healthcare RCM**

A Texas-based mental health center wanted to automate the manual **medical billing process**. The primary challenge for OSP was to manage multiple insurance providers for a large clinic set up. The client specifically asked to improve –

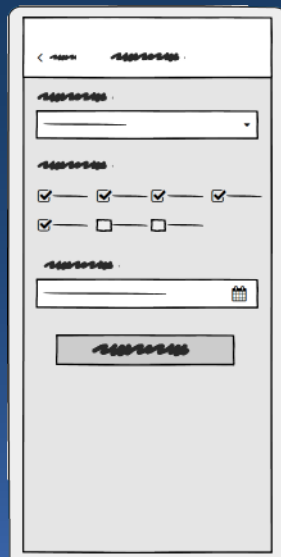

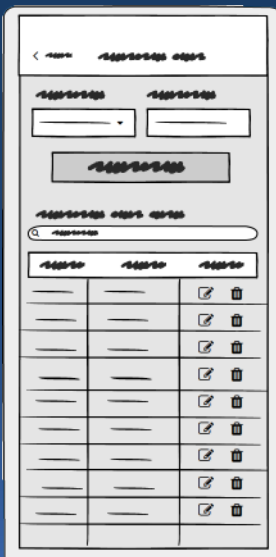

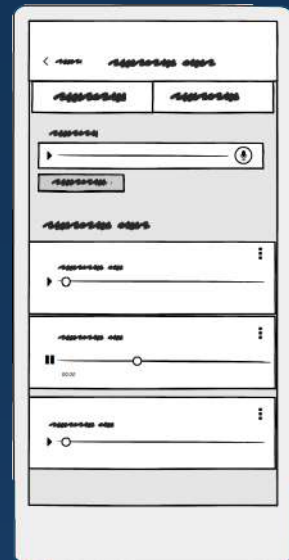

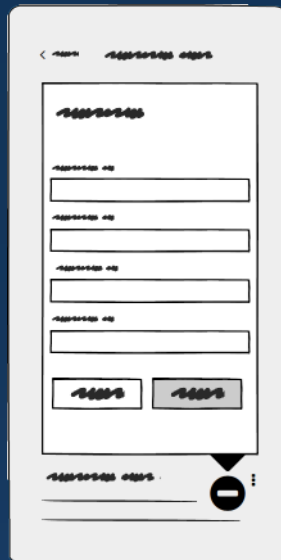

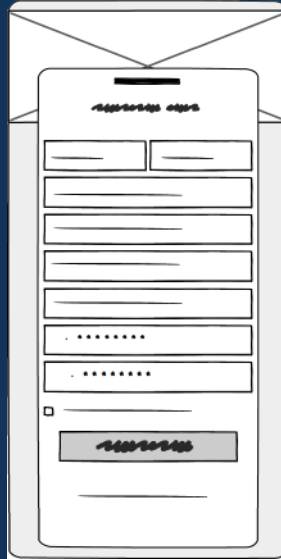

- ◆ **Flexibility in Billing**
- ◆ **Workflow Automation**
- ◆ **Accurate Claim Scrubbing**

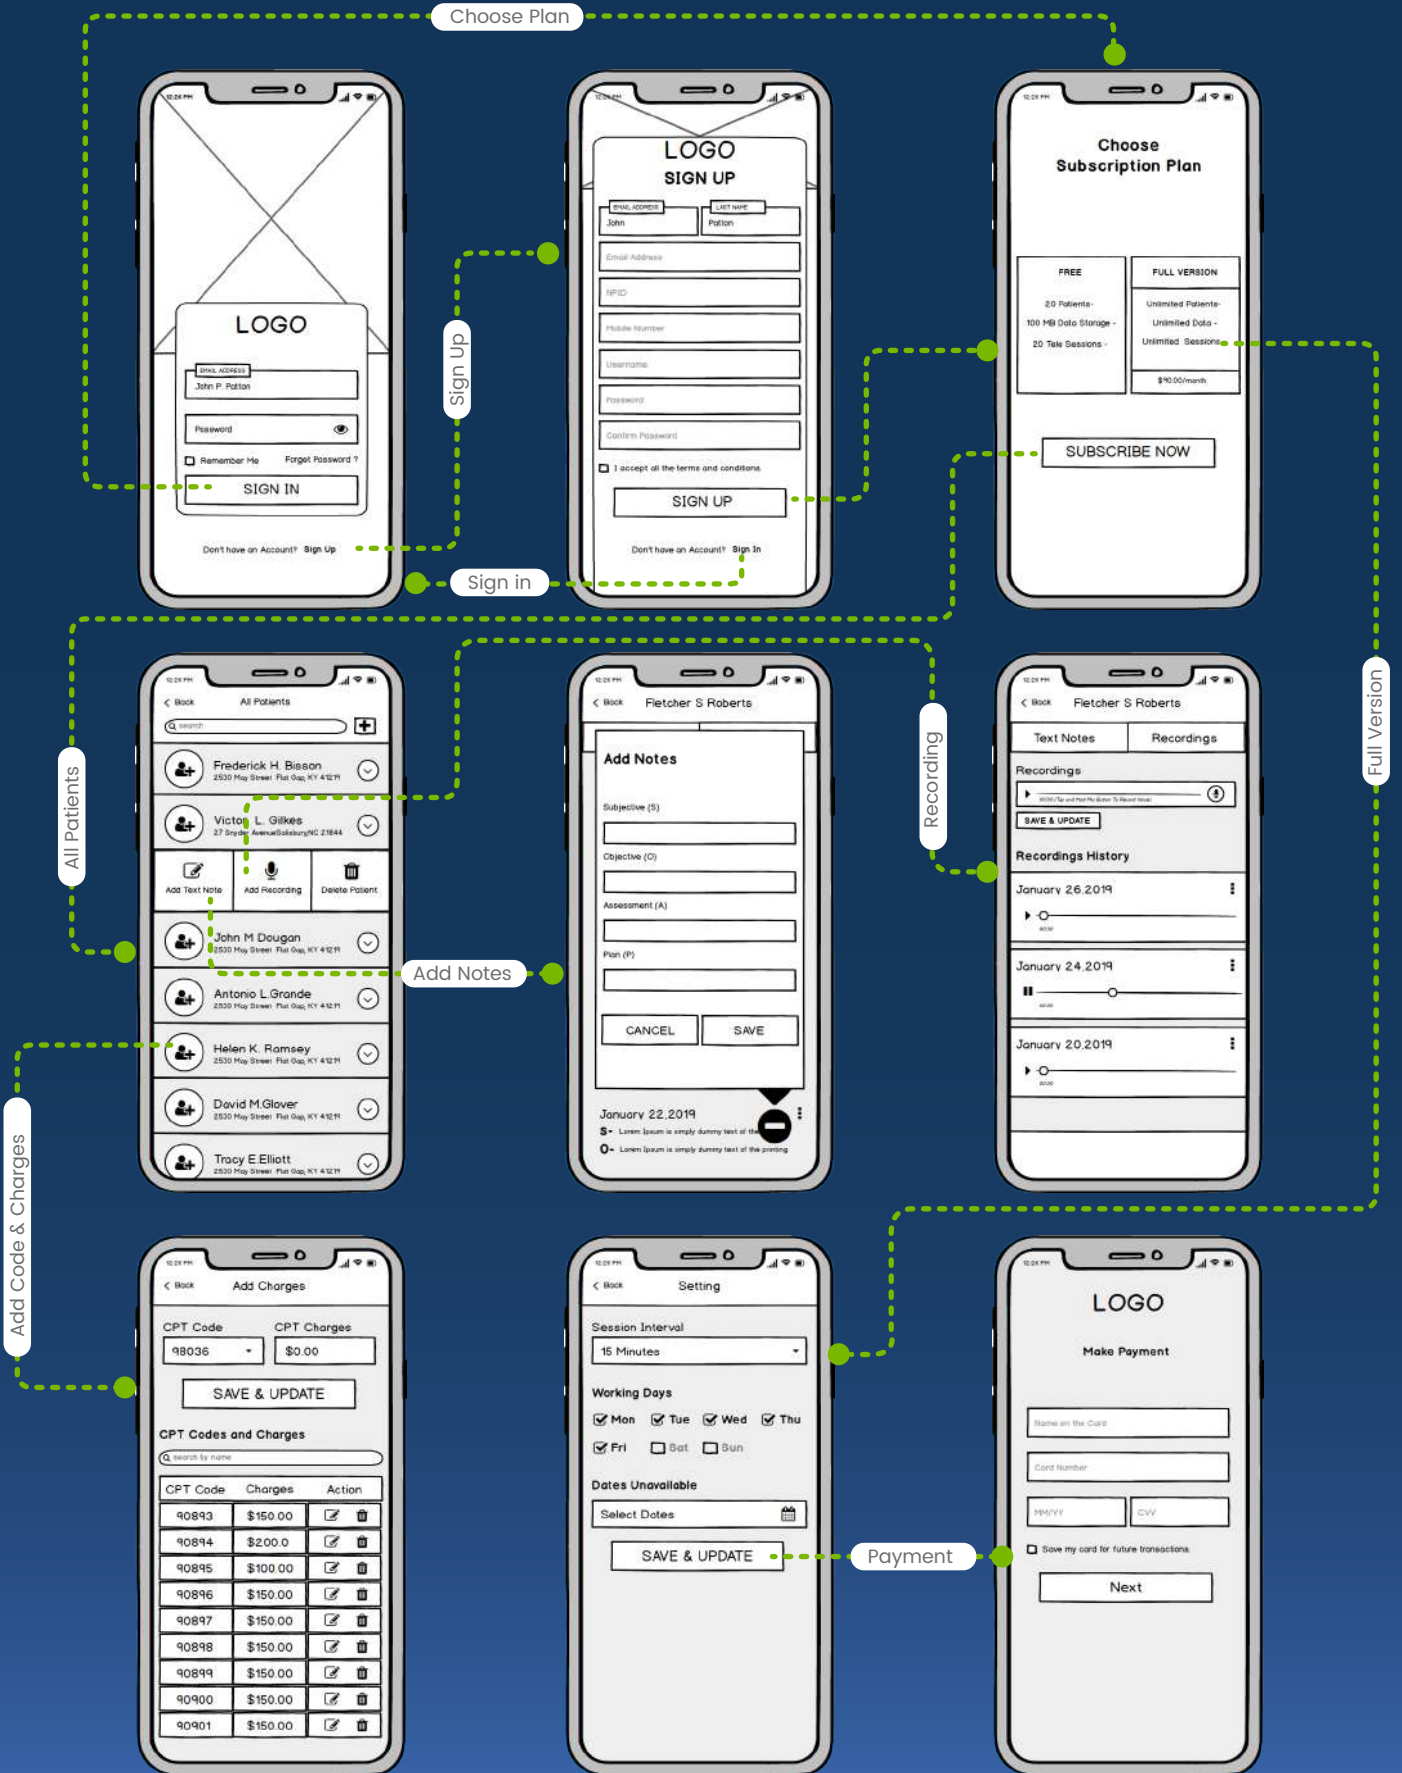

RCM: Information Architecture

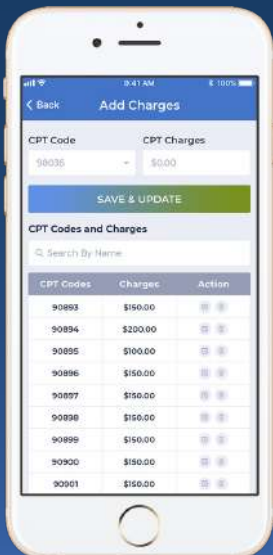

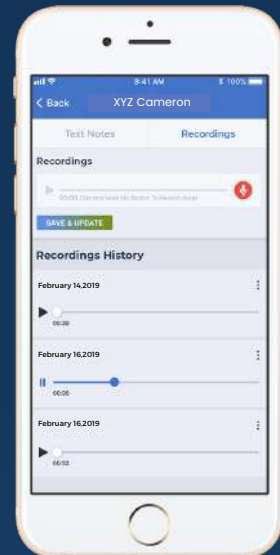

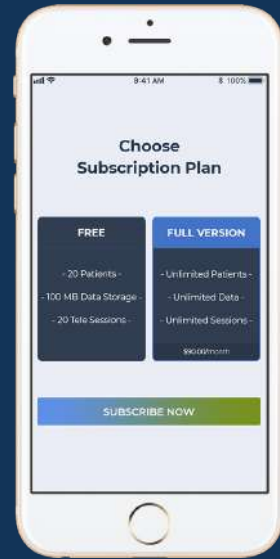

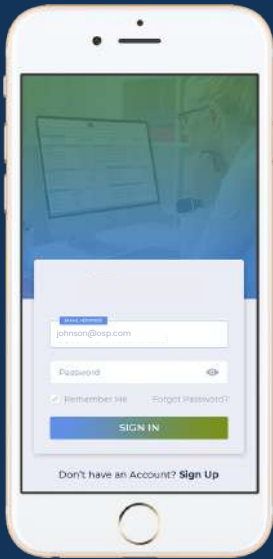

RCM: Wireframe

RCM: User Flow

RCM: User Interface Design

RCM: Success Stats

- ◆ **15%** Decrease in Claim Denials
- ◆ **80%** Decrease in Manual Claims Filing
- ◆ **20%** Increase in Productivity
- ◆ **30%** Reduction in Claim Errors
- ◆ **15%** Increase in Everyday Collections

Our customized mental health billing platform solved all the challenges for the client and delivered success. You can read the complete case study [here](#).

Listen To **OUR Client**

“ The challenges of mental health management are complex, but OSP helped us to solve them with ease. We shared our creative vision with OSP, and they offered us their services at a lesser price with excellent, precise, and creative work. ”

- CHRIS HUSTED

We are a leading software development company aiming to empower, and inspire the world with next-gen solutions. We help in simplifying every step of the development process, from system architecture design to quality delivery. Our intelligent processes enable quick deployment of enterprise-grade solutions against the toughest, and most complex challenges.

We are re-imagining how technology can empower Healthcare, AI, Analytics, and Financial organizations to build solutions for every day use in business applications.

With 10+ years of experience, and 200+ customers worldwide, we're leveraging technology to build the future today.
